

FORTKNOX™

Never-Stick Asphalt Release Agent

Fortknox™ has been tested and proven effective on the following mix designs:

- SBS (Styrene Butadiene Styrene)
- Rubber, Nova-chip
- Polymer modified mix designs
- Polymer modified OGFC (open graded friction course)
- Stone mastic asphalt (SMA)

Regardless of any asphalt mix designs - Fortknox™ delivers superior results with minimal if any asphalt residue remaining on the truck beds.

Asphalt build-up is a major issue at many plants worldwide. Fortknox™ never-stick release agent eliminates this problem, thereby increasing productivity and reducing safety concerns.

**Ready to use – no dilution or mixing.
no negative impact on hot-mix designs.**

**SPRAYING EQUIPMENT
@ No charge**

Specially designed for asphalt industry to apply the correct amount of product to each truck bed, thereby eliminating over-use, maximum performance of Fortknox™ and increasing productivity

- > Heavy duty
- > Any size truck bed
- > 24 hrs/365 days service
- > With back-up systems.
- > 100% guarantee

FORTKNOX™

Never-Stick Asphalt Release Agent

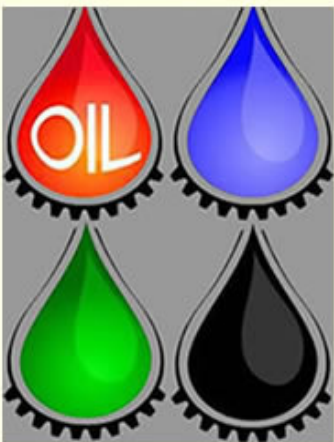

A world class environmentally friendly productivity boosting never-stick release agent for the Asphalt industry.

- > Increases productivity
- < Decreases operational cost
- > Increases equipment lifespan

Fortknox™ penetrates metal to create never-stick film.
The build-up solution.

- Safe on metals, rubber, glass & painted surfaces.
- Non-flammable – Flash point >180°C.
- All natural – Bio-Green made out of natural resources.
- Meets Environmental Protection Authority (EPA) compliant.
- Micro-film technology – it penetrates the metal of the truck bed to create a non-stick film.

- Safe on marine life – non-toxic to aquatic environments. However, avoid uncontrolled releases of this product into the environment.
- Non-Corrosive – contains special inhibitor.
- Lubricates – tail gate, trap-door deliveries.
- Zero negative impacts to any hot-mix asphalts.
- Fortknox™ have no recorded negative effect on equipment or materials.
