

- Diesel alternative** - Better than diesel
- Legal to use** - Avoid EPA fines
- Economical** - Save money
- Non-Stick + Cleaner + Lubricant**

Pavertrend™ is a most effective Biogreen alternative to other petroleum based solvents.  
 Pavertrend™ has changed the way the paving industry cleans their equipment - setting a new industry standard.

### Works better than Diesel

Case	Diesel	Pavertrend™
#1	Spray the hopper about every 5th load to prevent build-up.	Spray the hopper down only twice per day - prevent build-up.
#2	Spray every 5 shovel to prevent asphalt build-up.	Every 30 shovel to prevent asphalt build-up.

### Save Money

It takes 5 times as much diesel fuel **Vs** 1 litre of Pavertrend™ to do the same job.

### Avoid EPA Fines

EPA fines are costly and cause time-loss.

1 Litre of diesel fuel = contaminate 1 million litres of drinking water

## Testimonial

*"Pavertrend not only works quickly in removing asphalt, but it also leaves a slick oily film on the surface of tools and equipment to prevent asphalt and tar from sticking. We call Pavertrend™ 'Diesel King', it does a great job and it just keeps working. I don't think I could find anything better!"*
